Ruhnn Holding Limited Announces Fourth Quarter and Fiscal Year 2019 Unaudited Financial Results

- 4QFY19 GMV increased 81.3% year-over-year
- 4QFY19 services revenues in the platform model increased 315.7% year-over-year
- 4QFY19 net loss attributable to Ruhnn narrowed 53.3% year-over-year

HANGZHOU, China, June 13, 2019 (GLOBE NEWSWIRE) — Ruhnn Holding Limited (“Ruhnn” or the “Company”) (NASDAQ: RUHN), the largest internet key opinion leader (“KOL”) facilitator in China as measured by revenue in 2018, according to Frost & Sullivan, today announced its unaudited financial results for the fourth quarter and full fiscal year ended March 31, 2019.

Fourth Quarter Fiscal 2019 Financial and Operational Highlights:

- **GMV¹** was RMB648.3 million (US\$96.6 million), an 81.3% increase from RMB357.5 million for the same quarter of last fiscal year.
- **Net revenues** were RMB237.3 million (US\$35.4 million), a 20.7% increase from RMB196.5 million for the same quarter of last fiscal year.
- **Net loss attributable to Ruhnn** significantly narrowed to RMB29.4 million (US\$4.4 million), a 53.3% decrease from RMB62.8 million for the same quarter of last fiscal year.
- **Basic and diluted net loss per share** was RMB0.09 (US\$0.01), compared with basic and diluted net loss per share of RMB0.20 for the same quarter of last fiscal year.
- **Number of signed KOLs** increased to 128 as of March 31, 2019, compared with 113 as of December 31, 2018 and 83 as of March 31, 2018.
- **Number of brands that the Company cooperated with** increased to 632 as of March 31, 2019, compared with 501 as of December 31, 2018 and 166 as of March 31, 2018.

¹ “GMV” refers to gross merchandize value, which represents the aggregate value of merchandize ordered in the Company’s online stores and third-party online stores to which the Company provides KOL sales services (but not including online stores to which the Company only provides KOL advertising services), regardless of whether the merchandise is actually sold, delivered or returned. The calculation of GMV includes shipping charges paid by buyers. GMV of third-party online stores to which the Company provides KOL sales services includes the GMV of all products ordered on such stores because the Company generally provides KOL sales services for all products sold on such stores. Since January 2019, the Company has provided KOL sales services for specified products in certain third-party online stores, and in such cases, only the GMV of such products for which the Company provided KOL sales services are included in the Company’s GMV for the relevant period.

Fiscal Year 2019 Financial and Operational Highlights:

- **GMV** was RMB2.9 billion (US\$426.3 million), a 39.9% increase from RMB2.0 billion for fiscal year 2018.
- **Net revenues** were RMB1.1 billion (US\$162.9 million), a 15.4% increase from RMB947.6 million for fiscal year 2018.
- **Net loss attributable to Ruhnn** significantly narrowed to RMB74.5 million (US\$11.1 million), a 28.4% decrease from RMB104.0 million for fiscal year 2018.
- **Basic and diluted net loss per share** was RMB0.23 (US\$0.03), compared with basic and diluted net loss per share of RMB0.33 for fiscal year 2018.
- The Company successfully completed its Initial Public Offering (“IPO”) of 10 million American Depositary Shares (“ADS”) on the Nasdaq Global Select Market on April 3, 2019, with a price of US\$12.5 per ADS and total offering size of US\$125.0 million.

Management Comments

"We are pleased to announce our first quarterly and annual earnings results as a public company. The year 2019 continues to be a milestone year for us as we successfully completed our IPO on the Nasdaq Global Select Market on April 3, 2019, enhancing our brand awareness and industry influence as China's largest internet KOL e-commerce facilitator. We believe the cash proceeds generated from the IPO will lay a solid foundation for our business growth in the years to come," said Mr. Min Feng, Founder and Chairman of Ruhnn. "Our strong fiscal year 2019 results, aside from being a testament to our management's operating and leadership capabilities, reflected robust GMV growth, in particular the platform model's growth, which were in turn fueled by our technology-driven supply chain upgrades. Ruhnn is China's most influential KOL e-commerce company and we have positioned ourselves as an advanced technology and big data platform that partners with emerging brands and KOLs to fully develop together, a cohesive product and identity strategy. With this positioning, Ruhnn is dedicated to partnering with new and emerging retail brands in China, providing comprehensive services relating to product design, targeting, marketing and supply chains, amongst many others, to better match our KOLs with brands.

⁶ Under the full-service model, the Company owns and operates online stores on third-party e-commerce platforms, a majority of which are opened in the name of the Company's KOLs, and generate revenue through online sales of the Company's self-designed products to consumers, especially the fans of the Company's KOLs' social media accounts that the Company manages.

⁷ Under the platform model, the Company connects KOLs with third-party online stores and merchants to promote products sold in third-party online stores or provides advertising services on KOLs' social media spaces to third-party merchants.

⁸ Certain KOLs under the Company's full-service model overlap with those under the platform model. On the other hand, the Company's KOLs that were undergoing training and had not started generating GMV under either of the business models as of the relevant date, were not included in these numbers.

⁹ Includes third-party online stores to which the Company provides KOL sales services and KOL advertising services.

¹⁰ Includes GMV from third-party online stores to which the Company only provides KOL sales services.

“We look forward to further collaborating with our shareholder, Alibaba, particularly in the area of asset-light platform model operations, as well as product marketing in KOL live broadcasting. We are exploring all categories of emerging businesses, strengthening the core competitive advantage of our platform, improving our KOL cultivating program to develop more top-tier and established KOLs and raising the barrier of entry in the KOL e-commerce industry. As the leader in China’s KOL e-commerce industry, we feel confident in our growth potential and our vision remains to maximize our long-term shareholder value,” Mr. Feng concluded.

Mr. Zhenbo Chi, Chief Financial Officer of Ruhnn, added, “We are pleased to continue on a rapid growth trajectory in the fourth quarter of fiscal year 2019, with our revenues from the platform model more than quadrupling to RMB50.3 million from RMB12.1 million a year ago. We also managed to significantly narrow our net loss on a year-over-year basis. This performance was driven by the progress we made in KOL cultivating as well as heightened monetization capabilities through advertising services and e-commerce, amongst many others. During fiscal year 2019, we experienced strong growth from both our full-service model and our asset-light platform model.

“With tremendous growth potential and our strategies on track, we have confidence in our ability to further gain market share by growing our KOL base and providing value-added services for more brands and online stores,” Mr. Chi concluded.

Fourth Quarter Fiscal 2019 Financial Results

GMV was RMB648.3 million (US\$96.6 million) for the fourth quarter of fiscal year 2019, an 81.3% increase from RMB357.5 million for the same quarter of last fiscal year. The increase was primarily attributable to the increase in GMV in the platform model.

Net revenues were RMB237.3 million (US\$35.4 million), a 20.7% increase from RMB196.5 million for the same quarter of last fiscal year. The increase was primarily attributable to the increase of revenues from services through the platform model.

- **Revenues from product sales through the full-service model** were RMB186.9 million (US\$27.9 million), a 1.4% increase from RMB184.4 million for the same quarter of last fiscal year. The increase was primarily attributable to the sales growth of the stores opened in the name of the Company’s top-tier KOLs and was partially offset by the transformation of the business model of some online stores opened in the name of the Company’s emerging and established KOLs from the full-service model to platform model. As a result of such transformation, the number of the Company’s online stores decreased to 56 as of March 31, 2019 from 86 as of March 31, 2018 and the number of the Company’s KOLs serving the full-service model decreased to 14 as of March 31, 2019 from 33 as of March 31, 2018. On the other hand, GMV from the Company’s online stores opened under top-tier KOLs that were in operation in the entire period of fiscal year 2018 and 2019, increased by 31% in the fourth quarter of fiscal year 2019, compared with the same quarter of fiscal year 2018.
- **Revenues from services through the platform model** were RMB50.3 million (US\$7.5 million), a 315.7% increase from RMB12.1 million for the same quarter of last fiscal year which was attributable to the increase in the number of KOLs under the Company’s platform model and an increase in the number of brands with which the Company cooperated in its advertising and marketing business.

Cost of revenues was RMB181.5 million (US\$27.0 million) for the fourth quarter of fiscal year 2019, an 18.0% increase from RMB153.8 million for the same quarter of last fiscal year. The increase was in line with the business expansion.

Gross profit was RMB55.7 million (US\$8.3 million) for the fourth quarter of fiscal year 2019, a 30.5% increase from RMB42.7 million for the same quarter of last fiscal year. Gross margin was 23.5% for the fourth quarter of fiscal year 2019, compared with 21.7% for the same quarter of last fiscal year. The increase was primarily due to the increased proportion of the Company's net revenues attributable to services under the platform model which exhibit higher gross margins than product sales, and an increase in the gross margin of the Company's services under the platform model due to KOL service fees as a percentage of the services revenues being lowered. The increase was partially offset by a decrease in the gross margin of the Company's product sales under the full-service model due to discounted sale of certain apparel and cosmetic products.

Total operating expenses were RMB90.7 million (US\$13.5 million) for the fourth quarter of fiscal year 2019, a 11.2% decrease from RMB102.2 million for the same quarter of last fiscal year.

- **Fulfillment expenses** were RMB27.8 million (US\$4.1 million) for the fourth quarter of fiscal year 2019, a 2.9% decrease from RMB28.6 million for the same quarter of last fiscal year.
- **Sales and marketing expenses** were RMB47.3 million (US\$7.0 million) for the fourth quarter of fiscal year 2019, a 38.5% increase from RMB34.1 million for the same quarter of last fiscal year. The increase of sales and marketing expenses was primarily due to the increased expenses of KOL incubation, cultivation, content production and training in order to support increased activities in the Company's KOL sales and advertising business.
- **General and administrative expenses** were RMB15.6 million (US\$2.3 million) for the fourth quarter of fiscal year 2019, a 60.3% decrease from RMB39.4 million for the same quarter of last fiscal year. The decrease was primarily because there was a provision made against advances paid to a certain supplier of RMB11.6 million in the fourth quarter of fiscal year 2018.

Loss from operations was RMB35.3 million (US\$5.3 million) for the fourth quarter of fiscal year 2019, compared with RMB59.8 million for the same quarter of last fiscal year.

Net loss was RMB28.7 million (US\$4.3 million) for the fourth quarter of fiscal year 2019, compared with RMB63.8 million for the same quarter of last fiscal year, representing a significant year-over-year decrease of 55.1%.

Net loss attributable to Ruhnn was RMB29.4 million (US\$4.4 million), compared with RMB62.8 million for the same quarter of last fiscal year, representing a significant year-over-year decrease of 53.3%.

Basic and diluted net loss per share was RMB0.09 (US\$0.01), compared with basic and diluted net loss per share of RMB0.20 for the same quarter of last fiscal year.

Fiscal Year 2019 Financial Results

GMV was RMB2.9 billion (US\$426.3 million) for fiscal year 2019, a 39.9% increase from RMB2.0 billion for fiscal year 2018. The increase was primarily attributable to the strong increase in GMV under the platform model.

Net revenues were RMB1.1 billion (US\$162.9 million) for fiscal year 2019, a 15.4% increase from RMB947.6 million for fiscal year 2018. The increase was primarily attributable to the increase in revenues from services through the platform model.

- **Revenues from product sales through the full-service model** were RMB942.8 million (US\$140.5 million) for fiscal year 2019, a 3.3% increase from RMB912.5 million for fiscal year 2018. The increase was primarily attributable to the sales growth of the stores opened in the name of the Company's top-tier KOLs. The increase was partially offset by the transformation of the business model of some online stores opened in the name of the Company's emerging and established KOLs from the full-service model into platform model. As a result of such transformation, the number of the Company's online stores decreased to 56 as of March 31, 2019 from 86 as of March 31, 2018 and the number of the Company's KOLs serving the full-service model decreased to 14 as of March 31, 2019 from 33 as of March 31, 2018. On the other hand, GMV from the Company's online stores opened under top-tier KOLs that were in operation in the entire period of fiscal year 2018 and 2019, increased by 15% for fiscal year 2019 compared with fiscal year 2018.
- **Revenues from services through the platform model** were RMB150.7 million (US\$22.4 million) for fiscal year 2019, a 329.6% increase from RMB35.1 million for fiscal year 2018. The significant increase was primarily attributable to an increase in the number of KOLs under the Company's platform model to 122 as of March 31, 2019 from 57 as of March 31, 2018, and an increase in the number of brands the Company cooperated with in its advertising and marketing business to 632 as of March 31, 2019 from 166 as of March 31, 2018.

Cost of revenues was RMB751.4 million (US\$112.0 million) for fiscal year 2019, a 16.8% increase from RMB643.4 million for fiscal year 2018. The increase was in line with the business expansion.

Gross profit was RMB342.0 million (US\$51.0 million) for fiscal year 2019, a 12.4% increase from RMB304.2 million for fiscal year 2018. Gross margin was 31.3% for fiscal year 2019, compared with 32.1% for fiscal year 2018. The slight decrease was primarily due to the decreased gross margin of online product sales as a result of discounted sales of certain apparel and cosmetic products. The decrease was partially offset by the increased proportion of the Company's net revenues attributable to services under the platform model which had higher gross margins than the full-service model, and an increase in the gross margin of the Company's services under the platform model as service fees as a percentage of the Company's services revenues was lowered.

Total operating expenses were RMB425.0 million (US\$63.3 million) for the fiscal year 2019, a 12.7% increase from RMB377.3 million for fiscal year 2018.

- **Fulfillment expenses** were RMB127.3 million (US\$19.0 million) for fiscal year 2019, a 27.3% increase from RMB100.1 million for fiscal year 2018. The increase was in line with the expansion of product sales volume.
- **Sales and marketing expenses** were RMB205.7 million (US\$30.6 million) for fiscal year 2019, a 40.7% increase from RMB146.2 million for fiscal year 2018. The increase of sales and marketing expenses was primarily due to the increased expenses of KOL incubation, cultivation, content production and training in order to support increased activities in the Company's KOL sales and advertising businesses.
- **General and administrative expenses** were RMB92.0 million (US\$13.7 million) for fiscal year 2019, a 29.8% decrease from RMB131.0 million for fiscal year 2018. The decrease was primarily because there was a provision made against advances paid to a certain supplier of RMB26.3 million in fiscal year 2018.

Loss from operations was RMB82.8 million (US\$12.3 million) for fiscal year 2019, compared with RMB72.4 million for fiscal year 2018.

Net loss was RMB86.2 million (US\$12.8 million) for fiscal year 2019, compared with RMB90.0 million for fiscal year 2018.

Net loss attributable to Ruhnn was RMB74.5 million (US\$11.1 million) for fiscal year 2019, compared with RMB104.0 million for fiscal year 2018, representing a significant year-over-year decrease of 28.4%.

Basic and diluted net loss per share was RMB0.23 (US\$0.03), compared with basic and diluted net loss per share of RMB0.33 for fiscal year 2018.

Balance Sheet

As of March 31, 2019, the Company had cash and cash equivalents of RMB90.0 million (US\$13.4 million) and restricted cash of RMB13.9 million (US\$2.1 million), compared with RMB9.7 million and RMB21.2 million, respectively, as of March 31, 2018.

About Ruhnn Holding Limited

Ruhnn Holding Limited is the largest internet key opinion leader ("KOL") facilitator in China as measured by revenue in 2018, according to Frost & Sullivan. The Company connects influential KOLs who engage and impact their fans on the internet to its vast commercial network to build the brands of fashion products. Ruhnn pioneered the commercialization of the KOL ecosystem in China, and operates under both full-service and platform models. The Company's full-service model integrates key steps of the e-commerce value chain from product design and sourcing and online store operations to logistics and after-sale services. The platform model promotes products sold in third-party online stores and provides advertising services on KOL's social media spaces to third-party merchants. As of March 31, 2019, the Company had 128 signed KOLs with an aggregate of 155.1 million fans across major social media platforms in China.
